

2016 U.S. – CHINA BUSINESS SUMMIT

Central China: Wuhan, March 23, 2016

South China: Fuzhou, March 25, 2016

The U.S. Commercial Service in Wuhan and Guangzhou, China in partnership with AmCham China and AmCham South China is organizing the first U.S. – China Business Summit in Wuhan, Hubei province and in Fuzhou, Fujian Province. The summit will bring provincial government entities and key players from Hubei, Hunan, Jiangxi, Henan and Fujian provinces to brief U.S. companies on market trends in these provinces and learn about project opportunities in central and southeastern China. This event will create a platform for U.S. companies introductions to key decision makers in four sectors: energy/environment, infrastructure, healthcare and smart cities.

U.S. companies interested in exploring or expanding in central and south China should participate. The summit will bring your company an unprecedented opportunity to:

- Participate in roundtables with provincial authorities from five provinces and learn about updates and changes to government regulations related to specific sectors, market trends and business opportunities in featured sectors;
- Learn about market demand for technologies and solutions;
- Promote your company’s technologies/products/services directly to key industry leaders and decision makers;
- Network with provincial government officials from five provinces; and
- Participate in pre-arranged matchmaking sessions with potential buyers and partners (Option B).

The roundtables with provincial government officials will feature presentations from five provincial governments focusing on:

ENERGY & ENVIRONMENT	INFRASTRUCTURE	HEALTHCARE	SMART CITIES
- Clean energy & EV	- New airport projects	- New public hospital projects	- IT infrastructure
- Water treatment	- Airport expansion projects & MRO	- Healthcare IT	- Internet of Things (IoTs)
- Soil remediation	- General aviation	- New drugs and medical devices	- Data collection and management esp. for civil water supply
- Carbon emission control esp. desulfurization and denitration	- Green building		- Smart transportation
	- Project finance		- Smart manufacturing
	- Cold chain/supply chain
