

## Study Illinois

### Mission statement

Study Illinois is a consortium of educational and training organizations in the state of Illinois, whose purpose is to connect international students and professionals with quality education and training.

Study Illinois was established in 2004 and has a membership comprised of two-year and four-year colleges and universities as well as ESL programs and training organizations. Members include both public and private organizations, and are located in diverse environments across the state.

Study Illinois members participate in professional opportunities such as the Education USA Forum, NAFSA Annual and Regional Conferences, and similar programs. Study Illinois has an annual transfer fair for students in the region to learn more about opportunities to study at Illinois universities.

### Why study in Illinois?

With over 175 schools to choose from, and an environment as diverse as the culture, Illinois is a great place to live and learn.

Illinois offers international students an excellent location in the heartland of the United States making Illinois a major transportation hub. With Chicago to the north, and St. Louis, Indianapolis and Memphis to the southwest, southeast and south respectively, Illinois' international students have the options of using one of four international airports and numerous domestic airports for convenient travel in and out of Illinois. Illinois cities are serviced by hundreds of airlines, Amtrak trains, Greyhound buses and local transportation services throughout the state.

Illinois' midwestern location means Illinois residents enjoy four distinct seasons of weather; hot summers, cold winters, mild springs, colorful and pleasant autumns. Illinois' state parks are available year-round for enjoying nature and outdoor recreation through all four seasons.

From the rolling hills and great forests of southern Illinois, vast prairies and fertile farmlands in central Illinois, to the great Lake Michigan and towering skyscrapers of Chicago in the north, Illinois offers international students an excellent location for education and recreation.

Study Illinois colleges and universities offer thousands of degrees to choose from, and Illinois campuses range from small private colleges in quiet rural locations to large vertical campuses in big-city settings. Science, business, engineering, medicine and a vast array of humanities offered at Illinois universities are at the top of the ranks. Illinois schools provide the widest variety of universities, colleges and English programs.

### List of Members

Adler School of Professional Psychology	Lewis University
Augustana College	Loyola University Chicago
Benedictine University	McKendree University
Bradley University	Millikin University
College of DuPage	Monmouth College
College of Lake County	Moraine Valley Community College
