Energy at HANNOVER MESSE 2016

Leading Trade Fair for Integrated Energy Systems and Mobility

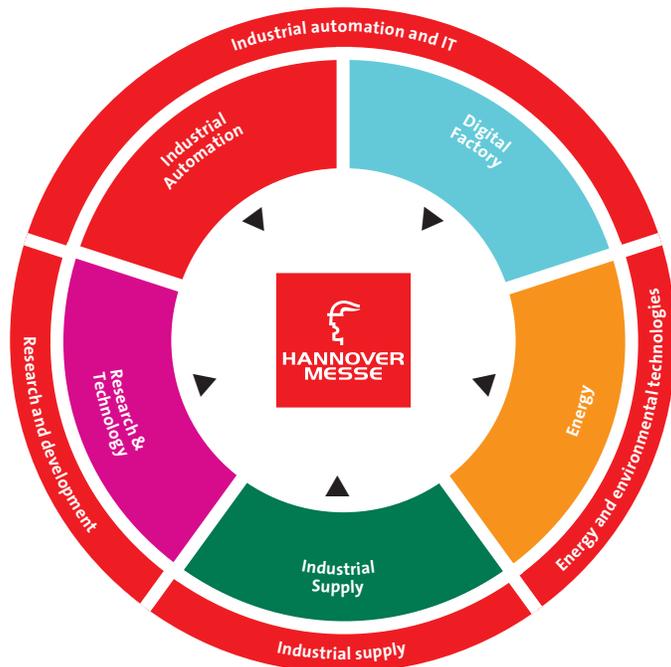

Under the motto “**Integrated Industry – Join the Network!**”, HANNOVER MESSE 2016 will focus on key challenges of the fourth industrial revolution such as achieving universal standards for machine-to-machine communication, maintaining data security, and finding new business models.

Flexibility, individualized production, and logistics are prerequisites for remaining competitive. Almost all industrial companies recognize this and are now digitizing their operations. German industrial companies alone are investing €40 billion for this transformation, and advanced U.S. manufacturers will have the opportunity to benefit from this seismic shift.

Energy Efficiency & Renewables, Storage & Monitoring, Smart-Grids & Infrastructure, and other topics relating to power generation, distribution and mobility will be the focus of Energy at HANNOVER MESSE 2016. Your business will be vital in showcasing these energy solutions to the highly valued audience of 90,000 industry professionals attending this event.

Benefits only HANNOVER MESSE can provide:

1. **Promising new contacts** – Senior decision-makers with firm project commitments come to Hannover from every continent to invest in new technology
2. **Innovations on a global scale** – Innovative solutions, cutting-edge technology, and new product launches attract highly-qualified professionals from your target sectors worldwide
3. **Massive crossover potential** – Five leading international trade fairs combined under one roof
4. **New networks** – Some 150 business delegations from industry, business, and government offer huge potential for developing new partnerships
5. **Maximum media exposure** – International press conferences, preview events, and over 2,300 journalists from 42 countries in attendance

HANNOVER MESSE 2015 Review:

6,500 exhibitors

6,500 companies from 70 countries

216,000 attendees

More than 70,000 from outside of Germany

USA Partner Country

On March 23rd, the White House officially confirmed that the United States will be the official Partner Country of HANNOVER MESSE 2016 for the first time since its launch in 1947. The thematic focus of Partner Country USA will include energy efficiency and energy production, state-of-the-art production engineering, smart technologies, education and training and transatlantic partnerships.

“Having the USA as the featured Partner Country will give us a golden opportunity to convey our dynamic business relations to the fullest while at the same time widening and deepening them.”

Dr. Peter Wittig, German Ambassador to the United States
