Intersolar India 2016 – Bringing Advanced Solar and Energy Storage Technologies and Solutions to India, October 19-21, 2016 Mumbai, India

Intersolar India is India's largest exhibition and conference for the solar and energy storage industries, taking place annually at the Bombay Exhibition Centre in Mumbai. **Intersolar India's** focus is photovoltaics, PV production technologies, energy storage systems and solar thermal technologies.

India has committed to a renewable energy goal of 175 GW by 2022 with more than 100 GW targeted for solar power. 60 GW will be ground mounted grid-connected solar power and 40 GW through rooftop grid-connected solar power. India's current manufacturing capacity is 4GW annually and with only 5+ GW installed, the challenge is set for rapid, sustained growth.

Intersolar India is expected to have 230+ exhibitors and over 11,000 attendees from over 50 countries. Admission is free for all registrants.

U.S. companies exhibiting at the event will receive B2B matching services and export assistance provided by the U.S. Commercial Service staff based in New Delhi and Mumbai.
