CHEMICAL SECTOR

8th largest chemical industry in the world
3rd largest sector in Brazil

Accounts for 2.4 percent of Brazilian GDP
Represents 10.8 percent of the industrial GDP

North American sourced chemical imports (2017)
- Canada: 13%
- Mexico: 8%
- U.S.: 79%

US$37.2B = value of 2017 chemical product imports,
An 8.8 percent growth compared to 2016

Over the past 26 years, Brazil has imported its chemical sector products globally.

Value of top 10 global imports (In US$M, 2017)

- Potassium Chloride: 2392
- Diohydrogen-Orpphosphate: 1287
- Urea (with nitrogen content >45% by weight): 1244
- Immunological Drug Products: 790
- Pesticides: 764
- Heterocyclic compounds doses: 715
- Fertilizers: 695
- Basiliximab; Bevacizumab; Daclizumab; Etanercept; Gemtuzumab; Ozogamicin; Oprelvekin; Rituximab; Trastuzumab (drugs): 608
- Sodium Hydroxide in Aqueous Solution: 502
- Fungicides: 499
