

April 23rd Webinar

China Aviation Market Overview and China Aviation & Aerospace Exhibition Opportunities

About the webinar

The Global Aviation Team of the International Trade Administration (ITA), U.S. Department of Commerce, is pleased to announce a webinar on the China Aviation Industry and the biannual China International Aviation & Aerospace Exhibition (known as Airshow China). This webinar will help U.S. companies learn more about the Chinese aviation market and industry and will also discuss an opportunity to exhibit at Airshow China 2018.

China Aviation Market

The webinar will provide an overview of the aviation Market in China and cover topics including:

- Market insights and trends
- Focus on the Maintenance, Repair and Overhaul (MRO) subsector
- Intellectual property rights protection in China
- Opportunities exhibit/attend Airshow China 2018 presented by Kallman Worldwide

China International Aviation & Aerospace Exhibition(Airshow China)

China International Aviation & Aerospace Exhibition (known as Airshow China) is the only international aerospace trade show in China that is endorsed by the Chinese central government. It features product displays, trade talks, technological exchanges, a flying demonstration and thousands of potential customers. China is regarded as the fastest growing aviation market in the world and its general aviation Industry is predicted to grow at an annual average rate of 19% until 2020. Since 1996, the show has been successfully held in Zhuhai city in every even-numbered year for 11 sessions. Airshow China 2018 will take place from Nov. 6-11, 2018.
