

## SBA Export Express Lenders

By allowing banks to use their own forms, SBA has streamlined the loan approval process for the SBA Export Express program, typically approving a guarantee request within 36 hours. SBA will provide an 85% guaranty on loans up to \$150,000 and a 75% guaranty on loans up to \$250,000, which is the maximum amount allowed under this program. Proceeds can be used for any legitimate business purpose including the acquisition of land or equipment, trade show participation, literature translation or other working capital needs. Loan terms will depend on the use of proceeds, but can go out up to 25 years. The applicant must have been in business, although not necessarily exporting, for at least 12 months and must demonstrate that proceeds will assist the firm in expanding in an existing foreign market or entering a new export market.
